**Subject:** Re: NPDES Permit Application Reminder for the City of Los Angeles's Hyperion treatment Plant, (NPDES Permit #CA0109991)

Thank you Becky for the heads up, for you information, Enrique retired from City service last month. Mrs. Barbara Romero is now, the new executive director, and general manager of the LA sanitation and environment. We are aware of the deadline, and will start preparing the NPDES permit renewal application for submittal to USEPA, and RWQCB soon.

Hi Director Zaldivar,

Please see attached a reminder letter that the permit application for the Hyperion Treatment Plant is due October 2, 2021.

Thanks,
